

K-LOVE Radio provides a great service to our local area in their programming with music that is family-friendly, as well as promoting events in our area in which our family and friends can participate, especially to the Christian community. If an LPFM broadcaster were to take over this station, it would change the overall 'sound' and then it would possibly sound just like any other station in this area. K-LOVE has a unique programming structure and even though it is via a network, it has a special way of bringing a national audience into a feeling of family. Through this station, it encourages community awareness and active participation of the listeners in various ways of interaction with the general public. Please preserve the availability of stations to provide a signal through the means of a radio network. Thank you for your time!
